PROFESSIONAL ULTRASONIC HEAD SPA CLEANING & STERILISING SOLUTION

Specially formulated for Japanese Head Spa systems and designed for use after every client and at the end of the day, this powerful yet salon-safe concentrate ensures your Head Spa Halo and internal systems remain hygienic, fresh, and operating at optimal performance.

KEY FEATURES

- ✓ Professional-grade sterilising concentrate (1L)
- ✓ Dilution ratio 1:20 – cost-effective and long-lasting
- ✓ Suitable for Head Spa Halo cycle cleaning (3–5 minutes)
- ✓ Ideal for end-of-day internal tank system cleansing
- ✓ Supports hygiene compliance within salon and spa settings
- ✓ Helps maintain system performance and equipment longevity

SKU- 1L: 836563 | 5L: 836587

Size: 1L & 5L | Safe for all head spa units | Includes Measuring Cup

Proven effective against Coronaviruses (including COVID-19), MRSA (including PVL), Hepatitis B, Influenza A (including H1N1), Salmonella, Legionella, E. coli, and TB.
Vegan, cruelty-free, paraben-free, sulphate-free, and made in the UK.

INSTRUCTION FOR USE

- Dilute at a ratio of 1:20 before use.
- Add 1 part concentrate (20ml) per 7 litres of water.
- Always prepare fresh diluted solution daily.

WHEN TO USE

Between Clients (Halo Cycle Cleaning):

- Prepare diluted solution as directed.
- Fill system without exceeding maximum fill line.
- Run cleaning cycle for 3–5 minutes.
- Drain system fully after cycle completion.
- Rinse with clean water if required by equipment manufacturer.

End of Day (Tank Cleaning):

- Dilute as directed.
- Fill tank to recommended capacity.
- Run full cleaning cycle.
- Drain completely (make sure to NOT leave ANY water in the tank or basin, as stagnant water is very dangerous for your clients)
- Leave system empty and dry over night.

Do not leave tools or components soaking beyond recommended cycle time.

CAUTION

For professional use only. Keep out of reach of children. Do not swallow. Avoid contact with eyes and skin. Do not inhale mist or spray. Do not mix with other cleaning agents or chemicals.

STORAGE

Store upright in original container. Keep tightly closed when not in use. Store in a cool, dry place below 40°C. Protect from direct sunlight and frost.

DISPOSAL

Dispose of container and packaging in accordance with official regulations. Small amounts of diluted product may be washed away through the public drainage system but larger quantities of concentrate must be disposed of in accordance with local authority guidelines.

Ingredients: Didecyl dimethyl ammonium chloride (<1%), Alkyl (C12–16) dimethylbenzyl ammonium chloride (<1%), Non-ionic surfactant (<1%), Chelating agent (<1%), Deionised water (>95%). All active substances supported under the EU BPR active substance review programme for human hygiene and public health disinfectant use.
